safeExam.Ai — Exam Rules & Proctoring Policies

Official Examination Integrity Guidelines & Automated Violation Enforcement

1. Browser & Interaction Security Policies

• **Prohibited Shortcuts (Copy, Cut, Paste, Select All):** Pressing Ctrl+C, Ctrl+V, Ctrl+X, Ctrl+A (or Cmd on Mac) or opening right-click context menu is strictly blocked. 1st attempt triggers an educational warning modal (0 demerits). 2nd attempt onwards adds +1 demerit point each time.

• **Browser Reload / Refresh (F5 / Ctrl+R):** Reloading or refreshing the page during an active exam attempt is strictly prohibited and immediately auto-submits the exam.

• **Tab Switching & Window Blur:** Leaving the examination tab or losing window focus adds +2 demerit points. If the student remains outside for more than 10 seconds, a modal with a 5-second countdown will auto-submit the exam.

• **Network Disconnection & Offline Protocol:** If internet is disconnected, the exam is immediately placed on hold (all answering disabled) and an unclosable modal appears with a 5-minute countdown. If connection is restored within 5 minutes, the exam resumes; if offline for more than 5 minutes, the exam auto-submits.

2. AI Computer Vision Policies (Agent ELI - YOLOv11)

• **Mobile Phone Detection:** If a smartphone is visible to the camera for 5 seconds, a warning modal with a 5-second countdown triggers. If not confirmed as removed within 5 seconds, the exam is auto-submitted.

• **Books, Notebooks & Handwritten Notes:** Detected cheat sheets or notebooks will progressively add +1 demerit point for every 5 seconds visible.

• **Multiple Persons in Frame:** Detecting more than one individual in camera view adds +2 demerit points every 5 seconds.

• **Candidate Absence / Black Screen:** If the candidate leaves camera view or the screen is blank for more than 10 seconds, a 5-second countdown modal triggers auto-submission.

3. Penalty Threshold & Submission Rules

• **10 Demerit Points Ceiling:** Accumulating a total of 10 demerit points results in immediate automated submission of the examination with a detailed violation report.

• **Exam Timer Expiration:** When the allotted exam duration expires, answers are automatically compiled and submitted.
